

Proporciones de Verano (D)

Escriba cada proporción en números, y simplifique de ser necesario.

$$\text{Sandcastle} : \text{Sunglasses} =$$

$$\text{Sandcastle} : (\text{Sandcastle} + \text{Sunglasses}) =$$

$$\text{Bicycle} : \text{Shovel} =$$

$$\text{Bicycle} : (\text{Bicycle} + \text{Shovel}) =$$

$$\text{Beach Ball} : \text{Sun} =$$

$$\text{Beach Ball} : (\text{Beach Ball} + \text{Sun}) =$$

$$\text{Bucket} : \text{Sunflower} =$$

$$\text{Bucket} : (\text{Bucket} + \text{Sunflower}) =$$

Proporciones de Verano (D) Respuestas

Escriba cada proporción en números, y simplifique de ser necesario.

$$\text{Sandcastle} : \text{Sunglasses} = 5 : 4$$

$$\text{Sandcastle} : (\text{Sandcastle} + \text{Sunglasses}) = 5 : 9$$

$$\text{Bicycle} : \text{Shovel} = 4 : 4$$

$$= 1 : 1$$

$$\text{Bicycle} : (\text{Bicycle} + \text{Shovel}) = 4 : 8$$

$$= 1 : 2$$

$$\text{Beach Ball} : \text{Sun} = 23 : 22$$

$$\text{Beach Ball} : (\text{Beach Ball} + \text{Sun}) = 23 : 45$$

$$\text{Bucket} : \text{Sunflower} = 9 : 19$$

$$\text{Bucket} : (\text{Bucket} + \text{Sunflower}) = 9 : 28$$
