

Graficar Sistemas Lineales (G)

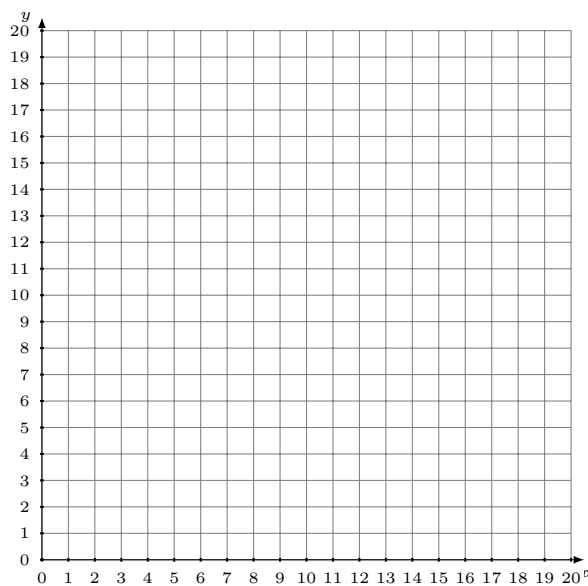

Grafique cada sistema lineal y halle su solución.

1. $4x + 19y = 247$
 $5x + 19y = 266$

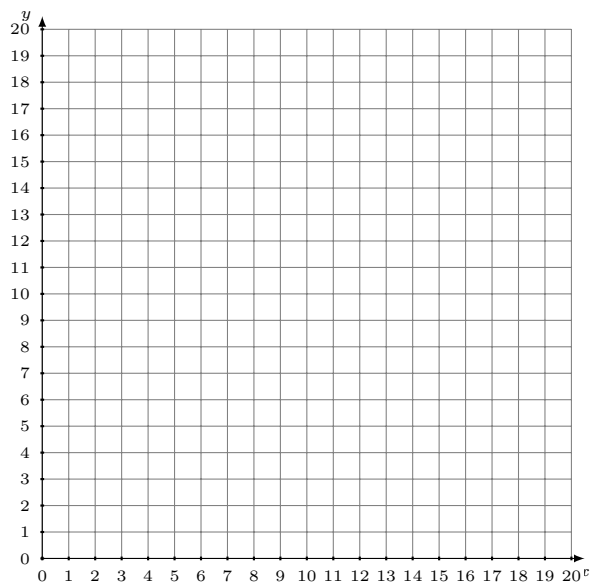

Solución: (----,----)

2. $y = 4$
 $x - 2y = -4$

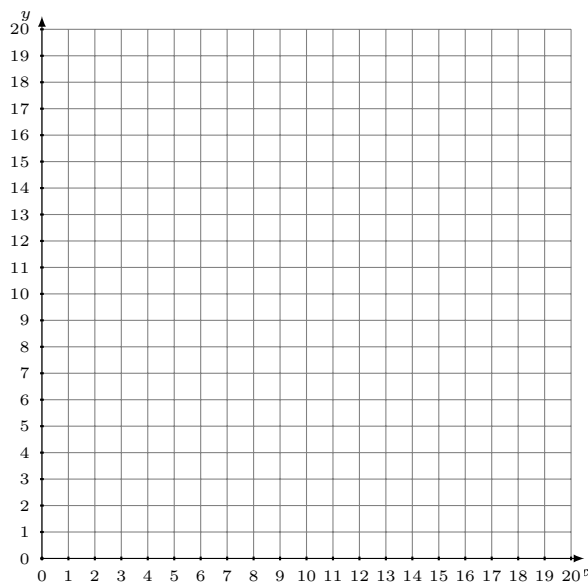

Solución: (----,----)

3. $8x - 13y = -39$
 $5x + 13y = 208$

Solución: (----,----)

4. $x - 7y = 0$
 $9x + 7y = 70$

Solución: (----,----)
