

Graficar Sistemas Lineales (J)

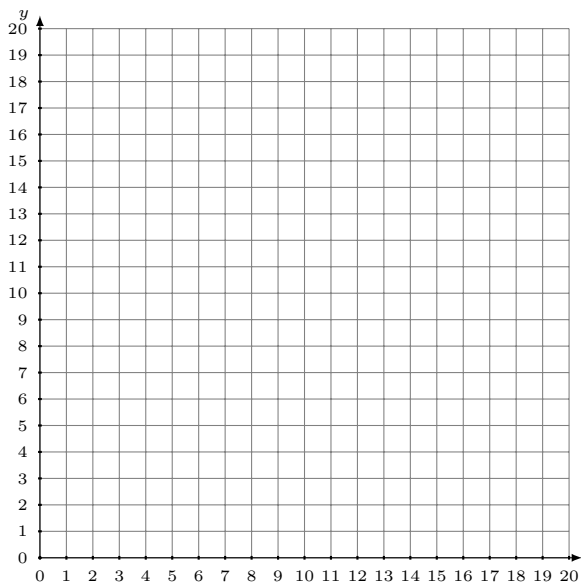

Grafique cada sistema lineal y halle su solución.

1. $2x - 5y = -50$
 $x - 5y = -55$

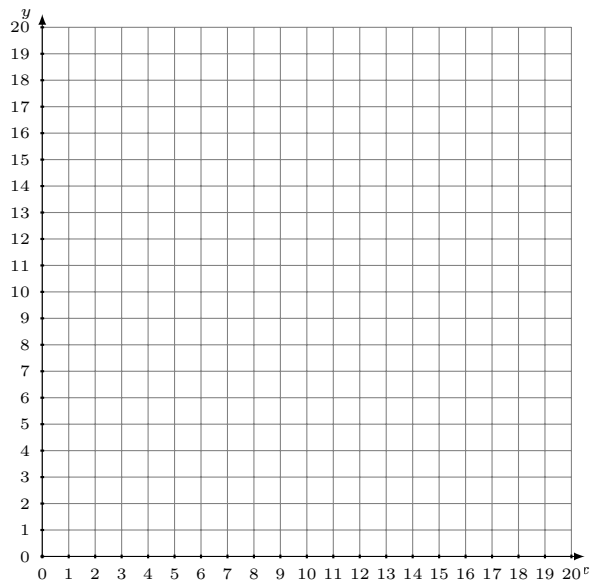

Solución: (----,----)

2. $x - y = -12$
 $x - 7y = -126$

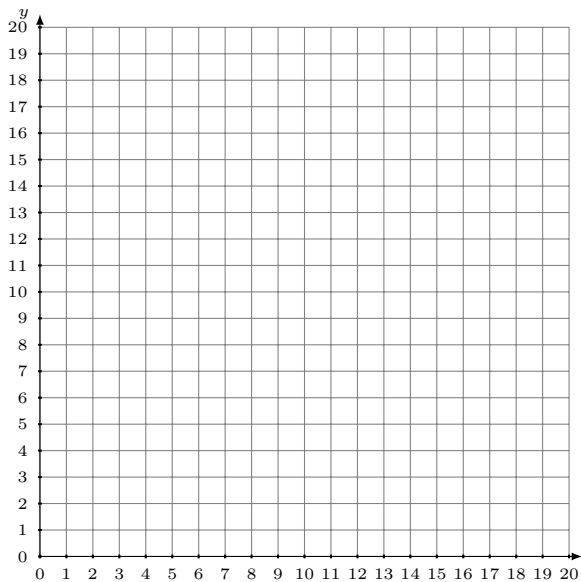

Solución: (----,----)

3. $3x + 11y = 110$
 $5x - 11y = -22$

Solución: (----,----)

4. $2x - y = 0$
 $13x + 2y = 34$

Solución: (----,----)
