

# Graficar Sistemas Lineales (I)

Grafique cada sistema lineal y halle su solución.

1.  $7x - 6y = 24$   
 $2x - y = 9$

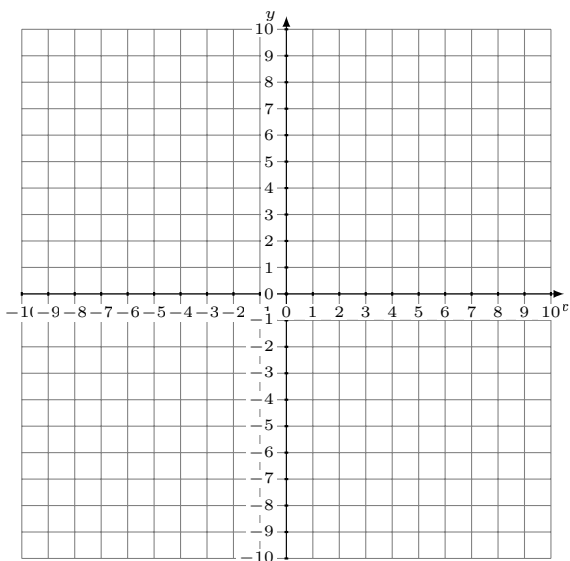

Solución: (----,----)

2.  $17x + 3y = -27$   
 $2x + 3y = 18$

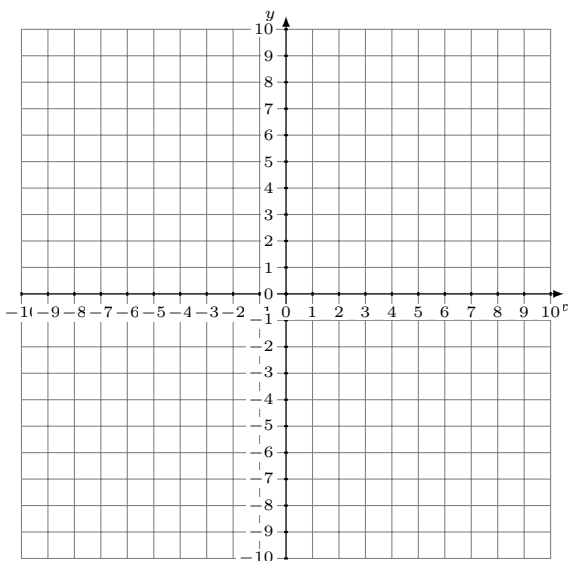

Solución: (----,----)

3.  $5x + 2y = -6$   
 $3x - y = -8$

Solución: (----,----)

4.  $y = 8$   
 $3x - 5y = -25$

Solución: (----,----)
