

Graficar Sistemas Lineales (D)

Grafique cada sistema lineal y halle su solución.

1. $x + 7y = 49$
 $15x - 7y = 63$

Solución: (----,----)

2. $y = \frac{1}{2}x - 9$
 $x - 6y = 42$

Solución: (----,----)

3. $x + y = -1$
 $y = -3x - 9$

Solución: (----,----)

4. $7x - 6y = 48$
 $y = \frac{1}{6}x - 2$

Solución: (----,----)

Graficar Sistemas Lineales (D) Respuestas

Grafique cada sistema lineal y halle su solución.

1. $x + 7y = 49$
 $15x - 7y = 63$

Solución: (7,6)

2. $y = \frac{1}{2}x - 9$
 $x - 6y = 42$

Solución: (6,-6)

3. $x + y = -1$
 $y = -3x - 9$

Solución: (-4,3)

4. $7x - 6y = 48$
 $y = \frac{1}{6}x - 2$

Solución: (6,-1)
