

# Graficar Sistemas Lineales (F)

Grafique cada sistema lineal y halle su solución.

1.  $y = 3x - 6$   
 $y = -\frac{1}{2}x + 8$

Solución: (----,----)

2.  $8x + 7y = 35$   
 $y = -3$

Solución: (----,----)

3.  $x - y = 3$   
 $17x - 6y = -48$

Solución: (----,----)

4.  $y = -x + 6$   
 $5x - 3y = 6$

Solución: (----,----)

# Graficar Sistemas Lineales (F) Respuestas

Grafique cada sistema lineal y halle su solución.

1.  $y = 3x - 6$   
 $y = -\frac{1}{2}x + 8$

Solución: (4,6)

2.  $8x + 7y = 35$   
 $y = -3$

Solución: (7,-3)

3.  $x - y = 3$   
 $17x - 6y = -48$

Solución: (-6,-9)

4.  $y = -x + 6$   
 $5x - 3y = 6$

Solución: (3,3)
