

Graficar Sistemas Lineales (F)

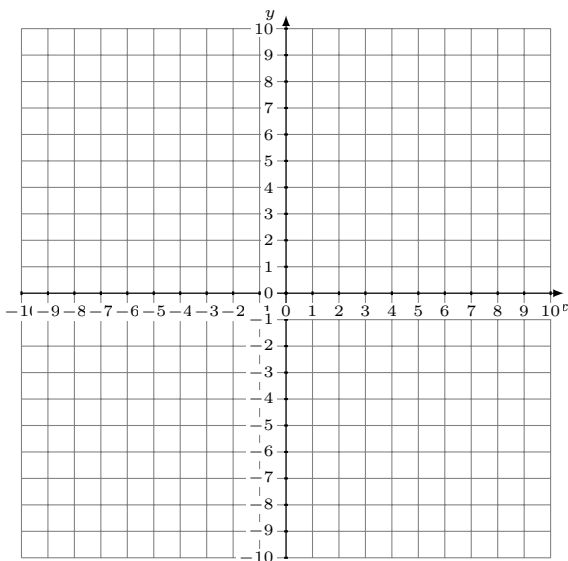

Grafique cada sistema lineal y halle su solución.

1. $y = 3x - 6$
 $y = -\frac{1}{2}x + 8$

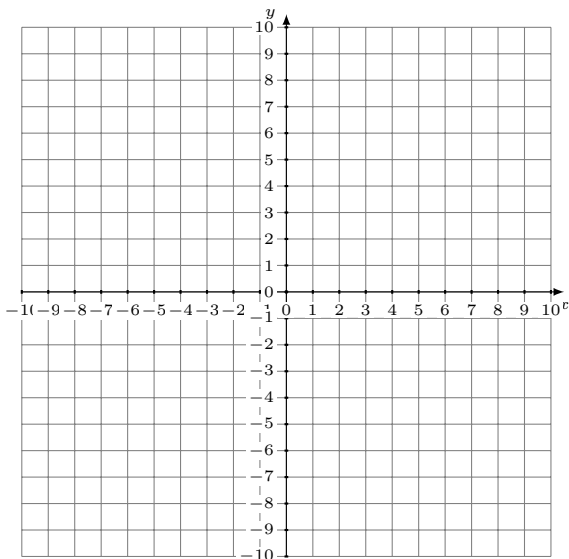

Solución: (----,----)

2. $8x + 7y = 35$
 $y = -3$

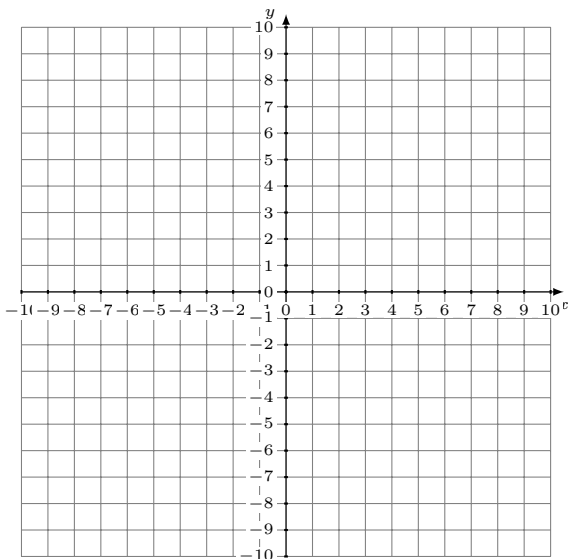

Solución: (----,----)

3. $x - y = 3$
 $17x - 6y = -48$

Solución: (----,----)

4. $y = -x + 6$
 $5x - 3y = 6$

Solución: (----,----)
