

Graficar Sistemas Lineales (G)

Grafique cada sistema lineal y halle su solución.

1. $4x + 3y = 21$
 $y = -\frac{10}{9}x + 5$

Solución: (----,----)

2. $y = -8$
 $13x + 2y = 10$

Solución: (----,----)

3. $2x - y = 2$
 $10x - y = -6$

Solución: (----,----)

4. $6x - 5y = 40$
 $4x - 5y = 30$

Solución: (----,----)
