

# Proporciones de Verano (E)

Escriba cada proporción en números, y simplifique de ser necesario.

 
$\text{Sunglasses} : \text{Sandcastle} =$
$\text{Sunglasses} : (\text{Sunglasses} + \text{Sandcastle}) =$

 
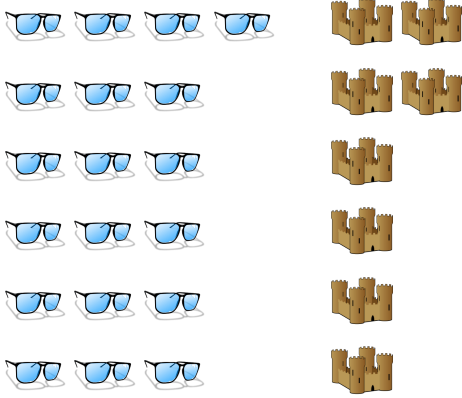

$\text{Shovel} : \text{Bucket} =$
$\text{Shovel} : (\text{Shovel} + \text{Bucket}) =$

 
$\text{Bicycle} : \text{Sun} =$
$\text{Bicycle} : (\text{Bicycle} + \text{Sun}) =$

 
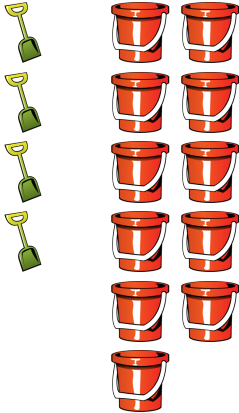

$\text{Sunflower} : \text{Beach Ball} =$
$\text{Sunflower} : (\text{Sunflower} + \text{Beach Ball}) =$

# Proporciones de Verano (E) Respuestas

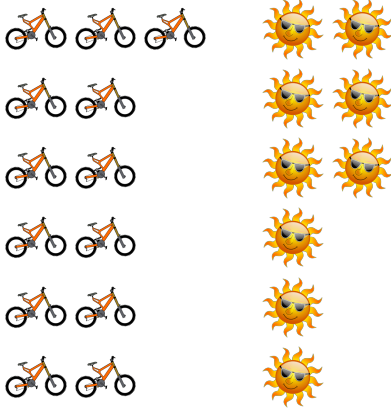

Escriba cada proporción en números, y simplifique de ser necesario.

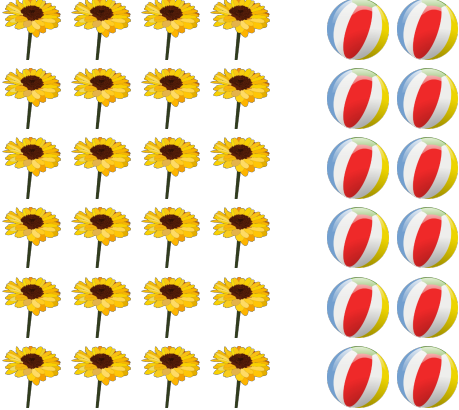

$\text{Sunglasses} : \text{Sandcastle} = 19 : 8$   
 $\text{Sunglasses} : (\text{Sunglasses} + \text{Sandcastle}) = 19 : 27$

$\text{Shovel} : \text{Bucket} = 4 : 11$   
 $\text{Shovel} : (\text{Shovel} + \text{Bucket}) = 4 : 15$

$\text{Bicycle} : \text{Sun} = 13 : 9$   
 $\text{Bicycle} : (\text{Bicycle} + \text{Sun}) = 13 : 22$

$\text{Sunflower} : \text{Beach Ball} = 24 : 12$   
 $= 2 : 1$   
 $\text{Sunflower} : (\text{Sunflower} + \text{Beach Ball}) = 24 : 36$   
 $= 2 : 3$
