

Sumar y Restar Dos Fracciones Mixtas (E)

Nombre: _____

Fecha: _____

Puntuación: _____

Calculen cada result.

1. $6\frac{1}{3} + 2\frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$

2. $4\frac{1}{2} - 1\frac{1}{2} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad} =$

3. $6\frac{1}{2} + 1\frac{1}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$

4. $9\frac{2}{3} - 5\frac{2}{3} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad} =$

5. $8\frac{1}{4} - 6\frac{2}{4} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad} =$

6. $4\frac{2}{5} - 1\frac{4}{5} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad} =$

7. $6\frac{5}{8} - 3\frac{5}{8} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad} =$

8. $4\frac{6}{8} + 8\frac{3}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$

9. $4\frac{2}{8} + 2\frac{6}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$

10. $5\frac{2}{6} + 9\frac{3}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$
