

# Multiplicación - Productos del 1 al 9 para el Bingo

## Instrucciones

- Primero, necesitará algunas tarjetas de Bingo de multiplicación para sus estudiantes, que puede encontrar en <https://www.mateslibres.com> (realice una búsqueda con la palabra "bingo"). Le recomendamos plasticarlas o imprimirlas en cartulina, para poder reutilizarlas. Entregue a cada estudiante una o más tarjetas de Bingo, y las fichas para jugar.
- Dígale a los estudiantes qué figura o condiciones ganarán el juego (p.ej. una línea, una X, la tarjeta llena). El espacio central es libre, así que pueden colocar una ficha de Bingo ahí al iniciar el juego.
- Elija un juego de entre las páginas siguientes. Lea las preguntas en el orden en que aparecen, sin leer las respuestas. Los estudiantes deberán calcular las respuestas. Si el producto está en su tarjeta, podrán cubrirlo con una ficha de Bingo.
- Cada vez que lea una pregunta, marque el producto en la lista ordenada (puede circularlo, tacharlo, etc.), para poder comprobar fácilmente los Bingos de los estudiantes ganadores.
- Hay 59 productos posibles, y aparecen 24 en cada tarjeta de Bingo. El Bingo normal tiene más de 59 posibilidades, así que estos juegos pueden ser un poco más rápidos.
