

## Multiplicar Dobles (A)

Halle cada producto.

$6 \times 6 = \underline{\hspace{2cm}}$

$8 \times 8 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

$10 \times 10 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

$2 \times 2 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$3 \times 3 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (A) Respuestas

Halle cada producto.

$6 \times 6 = \underline{36}$

$8 \times 8 = \underline{64}$

$11 \times 11 = \underline{121}$

$10 \times 10 = \underline{100}$

$14 \times 14 = \underline{196}$

$18 \times 18 = \underline{324}$

$18 \times 18 = \underline{324}$

$2 \times 2 = \underline{4}$

$19 \times 19 = \underline{361}$

$3 \times 3 = \underline{9}$

$13 \times 13 = \underline{169}$

$11 \times 11 = \underline{121}$

$16 \times 16 = \underline{256}$

$20 \times 20 = \underline{400}$

## Multiplicar Dobles (B)

Halle cada producto.

$15 \times 15 = \underline{\hspace{2cm}}$

$2 \times 2 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$8 \times 8 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$1 \times 1 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (B) Respuestas

Halle cada producto.

$15 \times 15 = \underline{225}$

$2 \times 2 = \underline{4}$

$4 \times 4 = \underline{16}$

$6 \times 6 = \underline{36}$

$8 \times 8 = \underline{64}$

$7 \times 7 = \underline{49}$

$14 \times 14 = \underline{196}$

$13 \times 13 = \underline{169}$

$12 \times 12 = \underline{144}$

$1 \times 1 = \underline{1}$

$16 \times 16 = \underline{256}$

$13 \times 13 = \underline{169}$

$20 \times 20 = \underline{400}$

$18 \times 18 = \underline{324}$

## Multiplicar Dobles (C)

Halle cada producto.

$5 \times 5 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$2 \times 2 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (C) Respuestas

Halle cada producto.

$$5 \times 5 = \underline{25}$$

$$12 \times 12 = \underline{144}$$

$$14 \times 14 = \underline{196}$$

$$19 \times 19 = \underline{361}$$

$$19 \times 19 = \underline{361}$$

$$15 \times 15 = \underline{225}$$

$$7 \times 7 = \underline{49}$$

$$13 \times 13 = \underline{169}$$

$$2 \times 2 = \underline{4}$$

$$13 \times 13 = \underline{169}$$

$$6 \times 6 = \underline{36}$$

$$16 \times 16 = \underline{256}$$

$$4 \times 4 = \underline{16}$$

$$18 \times 18 = \underline{324}$$

## Multiplicar Dobles (D)

Halle cada producto.

$18 \times 18 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

$9 \times 9 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$5 \times 5 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$10 \times 10 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (D) Respuestas

Halle cada producto.

$18 \times 18 = \underline{324}$

$4 \times 4 = \underline{16}$

$14 \times 14 = \underline{196}$

$16 \times 16 = \underline{256}$

$17 \times 17 = \underline{289}$

$9 \times 9 = \underline{81}$

$19 \times 19 = \underline{361}$

$14 \times 14 = \underline{196}$

$20 \times 20 = \underline{400}$

$7 \times 7 = \underline{49}$

$5 \times 5 = \underline{25}$

$13 \times 13 = \underline{169}$

$12 \times 12 = \underline{144}$

$10 \times 10 = \underline{100}$

## Multiplicar Dobles (E)

Halle cada producto.

$9 \times 9 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

$10 \times 10 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

$5 \times 5 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (E) Respuestas

Halle cada producto.

$$9 \times 9 = \underline{81}$$

$$15 \times 15 = \underline{225}$$

$$16 \times 16 = \underline{256}$$

$$18 \times 18 = \underline{324}$$

$$10 \times 10 = \underline{100}$$

$$13 \times 13 = \underline{169}$$

$$7 \times 7 = \underline{49}$$

$$20 \times 20 = \underline{400}$$

$$4 \times 4 = \underline{16}$$

$$6 \times 6 = \underline{36}$$

$$17 \times 17 = \underline{289}$$

$$5 \times 5 = \underline{25}$$

$$19 \times 19 = \underline{361}$$

$$13 \times 13 = \underline{169}$$

## Multiplicar Dobles (F)

Halle cada producto.

$5 \times 5 = \underline{\hspace{2cm}}$

$9 \times 9 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$8 \times 8 = \underline{\hspace{2cm}}$

$2 \times 2 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

$3 \times 3 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (F) Respuestas

Halle cada producto.

$5 \times 5 = \underline{25}$

$9 \times 9 = \underline{81}$

$19 \times 19 = \underline{361}$

$20 \times 20 = \underline{400}$

$8 \times 8 = \underline{64}$

$2 \times 2 = \underline{4}$

$6 \times 6 = \underline{36}$

$17 \times 17 = \underline{289}$

$3 \times 3 = \underline{9}$

$18 \times 18 = \underline{324}$

$12 \times 12 = \underline{144}$

$4 \times 4 = \underline{16}$

$11 \times 11 = \underline{121}$

$15 \times 15 = \underline{225}$

## Multiplicar Dobles (G)

Halle cada producto.

$11 \times 11 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$1 \times 1 = \underline{\hspace{2cm}}$

$8 \times 8 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

$9 \times 9 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (G) Respuestas

Halle cada producto.

$11 \times 11 = \underline{121}$

$15 \times 15 = \underline{225}$

$12 \times 12 = \underline{144}$

$15 \times 15 = \underline{225}$

$1 \times 1 = \underline{1}$

$8 \times 8 = \underline{64}$

$18 \times 18 = \underline{324}$

$20 \times 20 = \underline{400}$

$13 \times 13 = \underline{169}$

$11 \times 11 = \underline{121}$

$9 \times 9 = \underline{81}$

$20 \times 20 = \underline{400}$

$14 \times 14 = \underline{196}$

$17 \times 17 = \underline{289}$

## Multiplicar Dobles (H)

Halle cada producto.

$19 \times 19 = \underline{\hspace{2cm}}$

$9 \times 9 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$3 \times 3 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (H) Respuestas

Halle cada producto.

$19 \times 19 = \underline{361}$

$9 \times 9 = \underline{81}$

$7 \times 7 = \underline{49}$

$19 \times 19 = \underline{361}$

$3 \times 3 = \underline{9}$

$4 \times 4 = \underline{16}$

$13 \times 13 = \underline{169}$

$11 \times 11 = \underline{121}$

$20 \times 20 = \underline{400}$

$6 \times 6 = \underline{36}$

$12 \times 12 = \underline{144}$

$20 \times 20 = \underline{400}$

$16 \times 16 = \underline{256}$

$18 \times 18 = \underline{324}$

## Multiplicar Dobles (I)

Halle cada producto.

$3 \times 3 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

$1 \times 1 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$5 \times 5 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (I) Respuestas

Halle cada producto.

$$3 \times 3 = \underline{9}$$

$$17 \times 17 = \underline{289}$$

$$1 \times 1 = \underline{1}$$

$$11 \times 11 = \underline{121}$$

$$13 \times 13 = \underline{169}$$

$$12 \times 12 = \underline{144}$$

$$17 \times 17 = \underline{289}$$

$$15 \times 15 = \underline{225}$$

$$18 \times 18 = \underline{324}$$

$$20 \times 20 = \underline{400}$$

$$5 \times 5 = \underline{25}$$

$$16 \times 16 = \underline{256}$$

$$15 \times 15 = \underline{225}$$

$$12 \times 12 = \underline{144}$$

## Multiplicar Dobles (J)

Halle cada producto.

$5 \times 5 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$1 \times 1 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$18 \times 18 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$16 \times 16 = \underline{\hspace{2cm}}$

$2 \times 2 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

$19 \times 19 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

$17 \times 17 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

## Multiplicar Dobles (J) Respuestas

Halle cada producto.

$5 \times 5 = \underline{25}$

$14 \times 14 = \underline{196}$

$1 \times 1 = \underline{1}$

$20 \times 20 = \underline{400}$

$18 \times 18 = \underline{324}$

$6 \times 6 = \underline{36}$

$4 \times 4 = \underline{16}$

$16 \times 16 = \underline{256}$

$2 \times 2 = \underline{4}$

$20 \times 20 = \underline{400}$

$19 \times 19 = \underline{361}$

$17 \times 17 = \underline{289}$

$17 \times 17 = \underline{289}$

$11 \times 11 = \underline{121}$
