

## Division de Corazones (B)

¿Cuál es el valor de cada corazón?

$$360 \div \text{V} = 5$$

$$150 \div \text{A} = 6$$

$$192 \div \text{E} = 6$$

$$408 \div \text{B} = 6$$

$$320 \div \text{Q} = 4$$

$$680 \div \text{D} = 8$$

$$243 \div \text{K} = 9$$

$$99 \div \text{N} = 9$$

$$208 \div \text{F} = 8$$

$$126 \div \text{W} = 2$$

$$594 \div \text{C} = 6$$

$$75 \div \text{J} = 5$$

$$196 \div \text{S} = 4$$

$$231 \div \text{G} = 7$$

$$145 \div \text{L} = 5$$

$$234 \div \text{T} = 9$$

$$392 \div \text{R} = 7$$

$$344 \div \text{M} = 4$$

Ahora calcule las siguientes respuestas:

$$\text{M} + \text{E} =$$

$$\text{T} + \text{N} =$$

## División de Corazones (B) Respuestas

¿Cuál es el valor de cada corazón?

$$360 \div \text{V} = 5$$

72

$$150 \div \text{A} = 6$$

25

$$192 \div \text{E} = 6$$

32

$$408 \div \text{B} = 6$$

68

$$320 \div \text{Q} = 4$$

80

$$680 \div \text{D} = 8$$

85

$$243 \div \text{K} = 9$$

27

$$99 \div \text{N} = 9$$

11

$$208 \div \text{F} = 8$$

26

$$126 \div \text{W} = 2$$

63

$$594 \div \text{C} = 6$$

99

$$75 \div \text{J} = 5$$

15

$$196 \div \text{S} = 4$$

49

$$231 \div \text{G} = 7$$

33

$$145 \div \text{L} = 5$$

29

$$234 \div \text{T} = 9$$

26

$$392 \div \text{R} = 7$$

56

$$344 \div \text{M} = 4$$

86

Ahora calcule las siguientes respuestas:

$$\text{M} + \text{E} = 118$$

$$\text{T} + \text{N} = 37$$
