

Division de Corazones (H)

¿Cuál es el valor de cada corazón?

$592 \div \text{S} = 8$

$145 \div \text{K} = 5$

$126 \div \text{H} = 9$

$26 \div \text{L} = 1$

$464 \div \text{B} = 8$

$300 \div \text{V} = 5$

$219 \div \text{N} = 3$

$272 \div \text{C} = 4$

$18 \div \text{G} = 1$

$492 \div \text{F} = 6$

$330 \div \text{Q} = 5$

$232 \div \text{T} = 4$

$106 \div \text{J} = 2$

$84 \div \text{P} = 6$

$118 \div \text{W} = 2$

$220 \div \text{A} = 4$

$84 \div \text{E} = 1$

$160 \div \text{M} = 8$

Ahora calcule las siguientes respuestas:

$\text{C} + \text{Q} =$

$\text{J} + \text{M} =$

Division de Corazones (H) Respuestas

¿Cuál es el valor de cada corazón?

$$592 \div \text{S} = 8$$

74

$$145 \div \text{K} = 5$$

29

$$126 \div \text{H} = 9$$

14

$$26 \div \text{L} = 1$$

26

$$464 \div \text{B} = 8$$

58

$$300 \div \text{V} = 5$$

60

$$219 \div \text{N} = 3$$

73

$$272 \div \text{C} = 4$$

68

$$18 \div \text{G} = 1$$

18

$$492 \div \text{F} = 6$$

82

$$330 \div \text{Q} = 5$$

66

$$232 \div \text{T} = 4$$

58

$$106 \div \text{J} = 2$$

53

$$84 \div \text{P} = 6$$

14

$$118 \div \text{W} = 2$$

59

$$220 \div \text{A} = 4$$

55

$$84 \div \text{E} = 1$$

84

$$160 \div \text{M} = 8$$

20

Ahora calcule las siguientes respuestas:

$$\text{C} + \text{Q} = 134$$

$$\text{J} + \text{M} = 73$$
