

Notación Científica (C)

Convierta cada número ordinario a notación científica.

$$9,730 = 50,900,000 =$$

$$1,580 = 7,940,000 =$$

$$775,000,000 = 948,000,000 =$$

$$820,000,000 = 623,000,000 =$$

$$899,700 = 640,000 =$$

$$5,070 = 103,200 =$$

$$66,300,000 = 7,770,000 =$$

$$92,700 = 260,000 =$$

$$37,660,000 = 4,258 =$$

$$85,960,000 = 5,490,000 =$$

Notación Científica (C) Respuestas

Convierta cada número ordinario a notación científica.

$$9,730 = 9.73 \times 10^3 \quad 50,900,000 = 5.09 \times 10^7$$

$$1,580 = 1.58 \times 10^3 \quad 7,940,000 = 7.94 \times 10^6$$

$$775,000,000 = 7.75 \times 10^8 \quad 948,000,000 = 9.48 \times 10^8$$

$$820,000,000 = 8.2 \times 10^8 \quad 623,000,000 = 6.23 \times 10^8$$

$$899,700 = 8.997 \times 10^5 \quad 640,000 = 6.4 \times 10^5$$

$$5,070 = 5.07 \times 10^3 \quad 103,200 = 1.032 \times 10^5$$

$$66,300,000 = 6.63 \times 10^7 \quad 7,770,000 = 7.77 \times 10^6$$

$$92,700 = 9.27 \times 10^4 \quad 260,000 = 2.6 \times 10^5$$

$$37,660,000 = 3.766 \times 10^7 \quad 4,258 = 4.258 \times 10^3$$

$$85,960,000 = 8.596 \times 10^7 \quad 5,490,000 = 5.49 \times 10^6$$
